Check to make sure all parts were included with your pool cue rack kit. If you happen to be missing any parts, please call Fun Company at (800) 808-5554 and we will send you the parts you need.

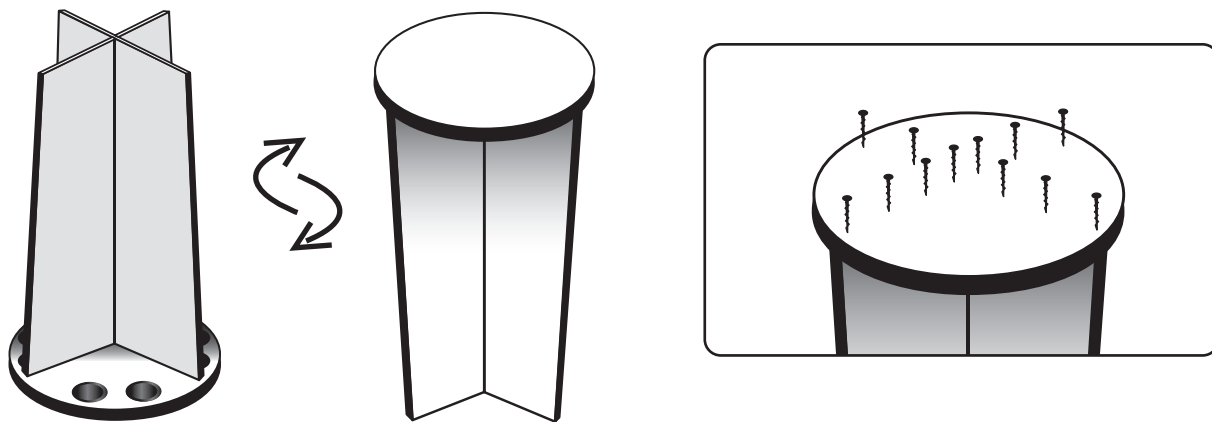

STEP 1

Slide the M and A shaped pieces together at slots to form x shaped support

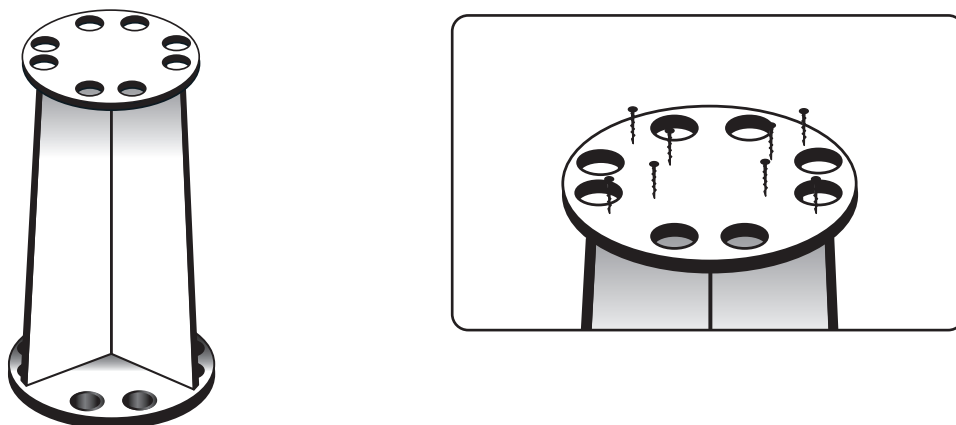

STEP 2

Lay lower shelf (base) down beside the support. Lift support and fit to the x shaped slots on base. Next, carefully flip base and support over. Using 12 1⁵/₈ screws, secure base to support using pre-drilled holes.

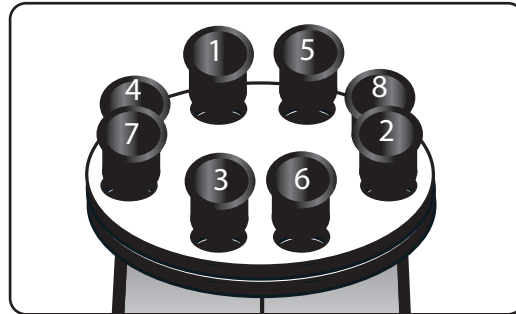

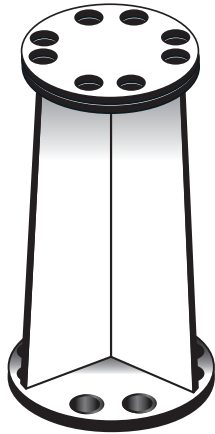

STEP 3

Flip unit over onto its base and place upper shelf to match x shaped slots. Use 8 1⁵/₈ screws in the pre-drilled holes to secure.

STEP 4

Lay Top Shelf on top of upper shelf and line up holes. Insert 8 sleeve inserts in the order shown.

STEP 5

Flip unit over again onto its top, be careful to protect top shelf from scratches.

!!WARNING!! Be sure to use shorter $1\frac{3}{8}$ screws on this step or damage to top will result.

Using 4 $1\frac{3}{8}$ screws in the pre-drilled holes on the underside of the upper shelf, secure top shelf to upper shelf.

Turn back over and your done!
